The Official Rules, Regulations & FAQ

Events: Errol Cup & 710 Degree Cup

Revised 3/23/17

ENTRIES DUE 30 DAYS PRIOR TO EVENT DATE

710 DEGREE CUP ENTRIES DUE BEFORE 6/8/17

Important Information

Errol Cup will Secret Shop Dispensaries for Flower for our Jan. Event and Concentrate for our July Event. When secret shopping, we know what type we want to purchase when we come to your dispensary, IE: Indica, Sativa, or Hybrid. We ask the Budtender's opinion, making it budtender's choice for your secret shopped entry. Good Luck.

All judging is conducted by state licensed medical marijuana patients. Entries are collected and distributed under the legal frameworks of Arizona's legal medical cannabis program guidelines.

Dispensary Categories

Indica Flower	Indica Concentrate	Non-Solvent	Topical
Sativa Flower	Sativa Concentrate	Vape Pen	
Hybrid Flower	Hybrid Concentrate	Edible	
CBD Flower	CBD Concentrate	CBD Edible	

Category Instructions

Flower

Category Information: All entries need to be labeled Sativa, Indica, or Hybrid. We limit the Sativa and Indica flower entries to genetic lineages that are greater than 70 percent in either species. Competitors will be required to properly categorize their entries. We reserve the right to re-categorize an entry that does not fit. You may be required to submit genetic lineage (back to grandparents) if you have an unknown strain. Hybrids can include any combination of Indica or Sativa below 70 percent (60/40, 50/50 and so on).

Competition Packaging Details: Your fourteen (14)-gram entry (This also includes CBD flower entries) must be placed in a sealed jar. Each Jar must clearly state the name of the strain, category and company name. This should be done only once on the exterior of the jar that holds your entry.

Concentrate

Category Information: The concentrate categories include all forms of solvent extractions, such as oils, waxes, budders & shatters. Competitors are required to categorize their entries correctly. We reserve the right to re-categorize an entry that does not fit. You may be required to submit genetic lineage (back to grandparents) if you have an unknown strain. Hybrids can include any combination of Indica or Sativa below 70 percent (60/40, 50/50 and so on). Under no circumstances are non-cannabis derived materials allowed to be infused into concentrates or non-solvent entries. Non-solvent hash category encompasses all non-solvent concentrates, such as dry sieves, scissor hash, creams and water extractions (bubble hash).

Non-Solvent

Category Information: The concentrate categories include all forms of solvent extractions, such as oils, waxes, budders & shatters. Competitors are required to categorize their entries correctly. We reserve the right to re-categorize an entry that does not fit. You may be required to submit genetic lineage (back to grandparents) if you have an unknown strain. Hybrids can include any combination of Indica or Sativa below 70 percent (60/40, 50/50 and so on). Under no circumstances are non-cannabis derived materials allowed to be infused into concentrates or non-solvent entries. Non-solvent hash category encompasses all non-solvent concentrates, such as dry sieves, scissor hash, creams and water extractions (bubble hash).

Competition Packaging Details: Your seven (7)-gram entry must be placed in a sealed container. Each container must clearly state the name of the strain, category and company name. This should be done only once on the exterior of the container that holds your entry.

Edibles

Category Information: Any medically infused product that is eaten or swallowed, including food, baked goods, tinctures, juices, sodas, capsules and pills.

THC/CBD cannot exceed more than 20% of the label THC/MG amount.

This is an Open Brand category, meaning that judges will see your packaging/labeling name when judging. You will be judged and tested on the accuracy and presentation of your label and product.

Competition Packaging Details: Your seven (7)-individually packaged entries must have the packaging and labeling used when sold at a dispensary. Participants **MUST** clearly delineate exactly the total MG of cannabis infused in each product. Entries without exact MG content on labeling will be disqualified.

CBD

Category Information: CBD category should have CBD in the medicine. Each CBD entry will be placed in categories of Flower, Concentrate, and Edibles.

CBD Flower

Competition Packaging Details: Your fourteen (14)-gram entry must be placed in a sealed jar. Each Jar must clearly state the name of the strain, category and company name. This should be done only once on the exterior of the jar that holds your entry.

CBD Concentrate

Competition Packaging Details: Your seven (7)-gram entry must be placed in a sealed container. Each container must clearly state the name of the strain, category and company name. This should be done only once on the exterior of the container that holds your entry.

CBD Edibles

Competition Packaging Details: Your seven (7)-individually packaged entries must have the packaging and labeling used when sold at a dispensary. Participants **MUST** clearly delineate exactly the total MG of cannabis infused in each product. Entries without exact MG content on labeling will be disqualified.

Vape Pen

Category Information: This category is for pre-filled vape pen cartridges only. Competitors may not enter vape pens that require the manual loading of concentrate.

Competition Packaging Details: This is an Open Brand category, meaning that judges will see your packaging/pen name when judging. Entries in this category need be in their retail packaging. All Vapes and batteries must be placed in a sealed container. The container must clearly state the name of the strain, category and company name. This should be done only once on the exterior of the container that holds your entry.

Topical

Category Information: Topical category will include patches, rubs, lotions, and other products considered to be topical medicines.

Competition Packaging Details: This is an Open Brand category, meaning that judges will see your packaging/labeling name when judging. Entries in this category need be in their retail packaging.

Rules for 1st, 2nd and 3rd

A competitor may only win ONE award per category, regardless of how many entries they have in a category. This rule is in place to prevent competitors from “stacking the field” and ensures a level playing field for everyone involved. Because competitors will only be eligible to receive one award, the higher of the scores will be awarded and the rest dropped from award consideration. For example, if a competitor places 1st and 3rd in a category, they will win 1st Place only with the 3rd Place entry being dropped and the next highest score moving up into its place.

Disqualifying Factors

Since no guidelines for testing Cannabis have been established in the State of Arizona, we are taking our standards and levels that we consider acceptable from the State of Colorado. Guidelines are as follows:

2. Residual Solvents

Substance	Acceptable Limits Per Gram	Product to be Tested
Butanes	< 800 -5,000 Parts Per Million (PPM)	Solvent-Based Concentrates
Heptanes	< 500 -5,000 Parts Per Million (PPM)	
Benzene**	< 12 Parts Per Million (PPM)	
Toluene**	< 1890 Parts Per Million (PPM)	
Hexane**	< 10290 Parts Per Million (PPM)	
Total Xylenes (m,p, o-xylenes)**	< 12,170 Parts Per Million (PPM)	
Any solvent not permitted for use pursuant to Rule R 605.	None Detected	

** Note: These solvents are not approved for use. Due to their possible presence in the solvents approved for use per Rule R 605, limits have been listed here accordingly.

[Leafly Article](#)

Common Category Misplacements: Chem Dawg is an Indica. OG Kush is an Indica, not a Sativa. Sour Diesel is a Hybrid. A Kush cross is an Indica or Hybrid. All Hazes are Sativa.

Reserves the Rights: Errl Cup reserves the right to disqualify (DQ) entries for any rule violations and in cases where EC deems the entry, or practices of the competitor therein, to be against the spirit of fair competition. Entries that have been adulterated with non-cannabis derived products will be disqualified. Entries that have incidents of mold, bacteria, or pesticides as identified either by the competition committee or our partner labs will be privately disqualified and the competitors immediately notified. If any entry is found to have been tampered with, adulterated or doctored in any way using any synthetic, artificial, or non-Cannabis organic substances, that entry will be disqualified. This includes, but is not limited to, any substance that did not originate from the original source materials (Cannabis), including additives such as non-Cannabis derived terpenes, oils or flavonoids, even when derived from natural or organic sources (such as fruits or flowers). This does NOT apply to entries in the "Edibles" category. These rules are solely in place for the safety and welfare of our judges and the community at large. Errl Cup does not offer refunds in the rare event of a disqualification.

If you have any questions or would like any further information or clarification please contact us at 602-540-6283 or jim@theerrlcup.com or jay@theerrlcup.com

Thank You

The Errl Cup Team
